March 7, 2024 Treaty Draft: Article 12, #3. (a, b)

3. When a Party has access to a pathogen with pandemic potential, it shall, using applicable biosafety, biosecurity and data protection standards:

(a) share with WHO any pathogen sequence information as soon as it is available to the Party;

(b) as soon as biological materials are available to the Party, provide the materials to one or more laboratories and/or biorepositories participating in WHO-coordinated laboratory networks (CLNs), which meet the legally binding terms of reference, as referenced below, with an electronic label of "PABS biological material" which will follow through to the end products and/or publications, and shall notify users of biological materials of the benefit-sharing provisions under the PABS System, recognizing that each Party may also share such biological materials to entities outside the CLNs. All users of biological materials shall have legal obligations under PABS regarding benefit sharing; and

The 2023 National Defense Authorization Act (NDAA (passed Dec 2022) has enshrined in US law a commitment to follow the WHO and use the One Health approach

- **Subtitle D—International Pandemic Preparedness** (pages 950-967)
- We will comply with the global health security agenda
- We will advance the One Health approach
- We will fund Gavi, A Bill Gates vaccine NGO
- We will be part of an early warning network—**though none have ever worked**
- We have the right to send personnel into a hostile country if it refuses to share information about an outbreak—to do what?
- At least $1 billion a year is allotted for this purpose
- Proliferation issues that other treaties prevent are ignored
- Uses ways to measure 'progress' in readiness that are known to be useless

https://www.congress.gov/117/bills/hr7776/BILLS-117hr7776enr.pdf 5

'ONE HEALTH' is a scam to enable the WHO to declare jurisdiction over the entire planet

https://www.who.int/news-room/questions-and-answers/item/one-health

- **The WHO expert definition**: *"an integrated unifying approach that aims to **sustainably balance and optimize the health of people, animals, and ecosystems**."*
- WHO formed a One Health Initiative to **integrate work on human, animal and environmental health across the Organization**. One Health is enshrined in 2023 NDAA
- "Critical areas include **food production** and distribution, **urbanization** and infrastructure development, international **travel** and **trade**, activities that lead to **biodiversity loss** and **climate change**, and those that put **increased pressure on the natural resource base** – ***all of which can lead to the emergence of zoonotic diseases***." – WHO through One Health asserts jurisdiction over the entire planet.
- One Health: "***all life is equal, and of equal concern...***" "***We are as concerned about the welfare of non-human animals and the environment as we are about humans***"

D. Multilateral Institutions for the 21st Century
Reinvigorating Multilateralism
"The need for revitalized multilateralism to adequately address contemporary global challenges of the 21st Century, and to make global governance more representative, effective, transparent and accountable, has been voiced at multiple fora. In this context, a more inclusive and reinvigorated multilateralism and reform aimed at implementing the 2030 agenda is essential."
https://www.g20.org/content/dam/gtwenty/gtwenty_new/document/G20-New-Delhi-Leaders-Declaration.pdf

World Health Organization
"Our food systems are harming the health of people and planet. Food systems contribute to over 30% of greenhouse gas emissions, and account for almost one third of the global burden of disease. Transforming food systems is therefore essential."

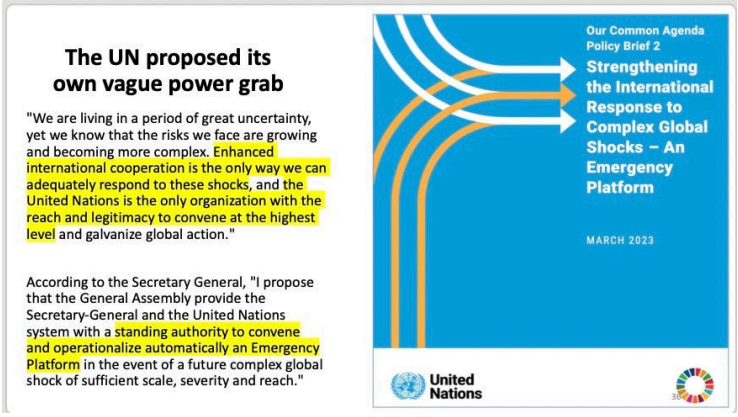
HEALTH FOR ALL



The UN proposed its own vague power grab
"We are living in a period of great uncertainty, yet we know that the risks we face are growing and becoming more complex. Enhanced international cooperation is the only way we can adequately respond to these shocks, and the United Nations is the only organization with the reach and legitimacy to convene at the highest level and galvanize global action."
According to the Secretary General, "I propose that the General Assembly provide the Secretary-General and the United Nations system with a standing authority to convene and operationalize automatically an Emergency Platform in the event of a future complex global shock of sufficient scale, severity and reach."
Our Common Agenda Policy Brief 2
Strengthening the International Response to Complex Global Shocks – An Emergency Platform
MARCH 2023
United Nations

The U.N. created a narrative to justify censorship:

Challenges to authority were rebranded as **hate speech.**

Then hate speech was claimed to lead to **violence and genocide.**

Democracy dies without freedom on speech

United Nations adopts ground-breaking Pact for the Future to transform global governance

New York, 22 September 2024 – World leaders today adopted a Pact for the Future that includes a Global Digital Compact and a Declaration on Future Generations. This Pact is the

https://www.un.org/sustainabledevelopment/blog/2024/09/press-release-sotf-2024/

United Nations: What did the Pact for the Future (September 2024) attempt to do?

- **Global governance**: comparable to what the WHO sought, the Secretary-General could declare **"global shocks"** at will, with no standards, and then direct nations how to manage them.
- "The entire Pact is designed to turbo-charge implementation of the **Sustainable Development Goals**." https://www.un.org/sustainabledevelopment/blog/2024/09/press-release-sotf-2024/
- **Information control**, online monitoring and **censorship**
- **Approve a "new global financial architecture"**
- **Impose a global tax for the UN --**
- **Establish "Climate Justice"**
- **Create a role governing outer space, oceans**
- **Stake out a role in "data and AI governance"**
- **President Trump is reducing funds to UN agencies by 87%**

UNITED NATIONS

What did the UN and WHO actually achieve?

1. Claiming consensus, without taking a vote, *watered down versions* of the **IHR amendments, Pandemic Treaty** and the **Pact for the Future** were passed in 2024-2025
2. A Pathogen Access and Benefit Sharing Agreement is still being negotiated—the globalists are committed to this
3. While the 3 documents did not give the WHO and UN the powers they sought to govern member states, they created a "blueprint" for where these organizations wish to go in future, and some small wins
4. All 3 documents support online censorship to stop "misinformation"
5. Practically all the important details of the WHO's pandemic will be decided in future.
6. The start of UN taxation

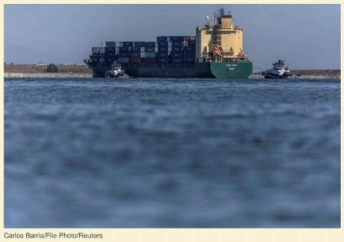
The UN obtained the right to tax maritime shipping in April 2025 in the name of climate change.

"The Trump administration rejected efforts to impose economic measures against its ships based on fuel choice, threatening reciprocal measures if fees are charged."

https://www.semafor.com/article/04/11/2025/un-shipping-body-approves-first-global-carbon-tax

UN shipping body approves first global carbon tax

Apr 11, 2025, 11:27am EDT Post Email Whatsapp Copy link

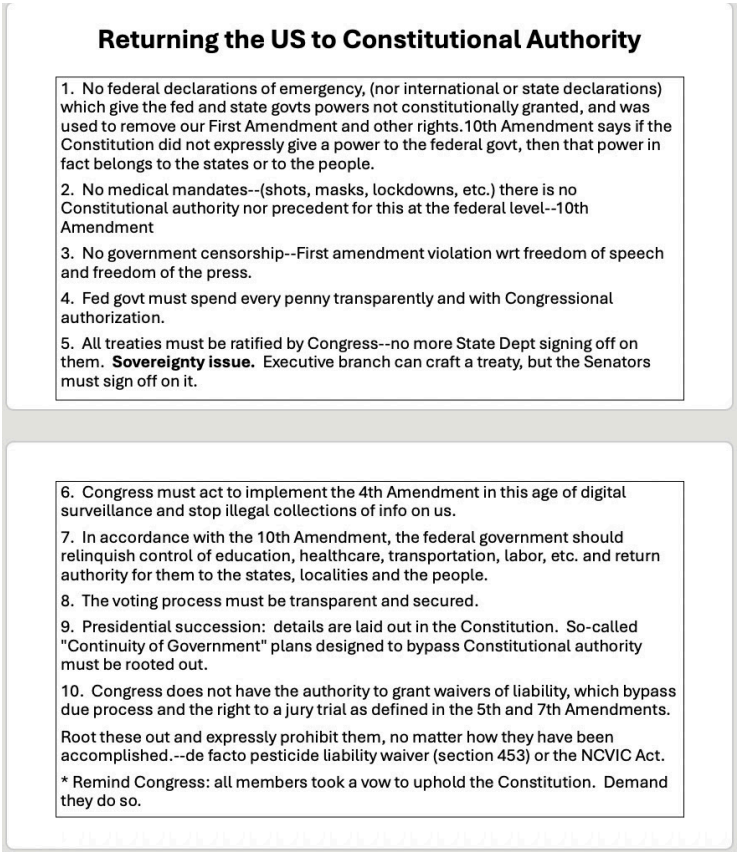


Carlos Barria/File Photo/Reuters

The UN shipping body approved the first global carbon tax Friday, which would require all ships worldwide to use a less-carbon intensive fuel mix, or else pay for excess emissions from 2028.

Why is the Global Bio-Security Agenda so important to the international power elites?

The suggested IHR Amendments and Pandemic Treaty give them the following:
1. A reason for nations to borrow many billions of dollars, spend it on products that profit them, and also earn huge commissions
2. The justification to conduct bio-surveillance, and to collect and decode the genomes of the world's population for potential profit and potential control
3. A reason to require digital vaccine passports/IDs to be followed by digital money, yielding extraordinary profits and total control
4. A reason to interfere with agricultural activities, fishing and food processing in the name of environmentalism and One Health
5. The ability to move populations in order to 'protect' biodiversity and ecosystems
6. The right to impose massive digital surveillance, censorship and the enforcement of a single WHO public health narrative worldwide—yielding ultimate control of information



Sorry, but substack apparently does not allow me to publish the pdf any more. I get an “unsupported file type” message.
